Career Profile						
<p>In my academic persuasion to cultivate democratic educational environment in schools, I am engaged in rigorous research and have developed research based thought provoking pedagogical designs addressing issues of Diversity and Democracy in a regular school system. I am working with Central Institute of Education (CIE), Department of Education, University of Delhi, India since November 1997 and have taught in a school for four years prior to that. Till date four Ph.D. scholars and Three M.Phil Scholar are awarded degree with my guidance; and ten scholars are pursuing their research with my guidance. I have had the opportunity to work with many national and international organizations like World Bank, MHRD India, NCERT, NCTE, SCERT, Roehampton University, London , USIEF, UGC. On the way, I have worked with a national team to develop E-Modules for master trainers for inclusive education in association with World Bank and MHRD India. It was a great learning experience working intensely with department of special needs at NCERT for developing a tool for textbook analysis from three segments of Inclusion Disability, Gender and socially marginalized and economically weaker sections. I had an opportunity to contribute to DESM NCERT as a consultant for the project titled "Promoting quality of learning in Science at Upper Primary Level in Chhattisgarh". I was appointed the convener, National level Core Committee, NCTE: B.Ed. M.Ed. (3 year) Integrated Degree Programme to finalize the curriculum for the programme and develop model syllabus for the programme as per the norms and regulations 2014 in February 2016. I have been diligently promoting the case of equal opportunities for all. Even while spelling my name, I believe that all the alphabets are equally significant and the thought is more important than the person, so a conscious use of lowercasing for the name.</p>
